1985 Pearson 385 Center Cockpit  
Boarding Ladder

- All Stainless tubing 1" O.D.
- All measurements are from and to the center of the tubing.
- Steps have grooved teak steps screwed on top (not shown here). Want to move to plasteak, need one extra step made to mount on top of 7/8" tubing for extra step separate from the boarding ladder. (See picture).
- Pivot pin at top is 1/4" diameter
- Standoff is 1" S/S tubing- end is NOT hollow- uses standard 1" rubber foot for chairs

Boarding Ladder

Boarding Ladder photo. Note the each step BELOW the bend is angled - so each step is level- even with the bend after the first two steps after the ladder is lowered into the water into position.
