

Weatherstrip for Interior Trim

Original welting/weather stripping can no longer be found as per the manufacturer they have discontinued this product. The best replacement I have found is this:

Deluxe Vinyl Embossed Welting/Piping

Sailrite: Item Number: 103291 \$0.60/Foot Best Color Match: Doe

- **Features:**

Looks great on cushions made from Vinyl, Phifertex or Sunbrella fabric.
Made from high quality Naugahyde Vinyl

1/4" lip

5/32" welt foam cord

7/32" overall cord (cording & vinyl cover)

Available in a wide variety of colors

Easy to clean

This is the original item that Pearson used to trim out the interior bulkheads. This item was discontinued by the Manufacturer for some time prior to May 2011 when I called them.

This is the stuff that Pearson used to fill all the gaps between the wooden interior parts and the rest of the interior. You can find this at Lowe's in the weatherstripping department. (I could not find this in Home Depot). You'll want to pick up a box of Monel staples (5/16") to put in your T-50 stapler to attach this. Identical to the original, looks great! Thanks to Dick Cusick for finding this.

This is the actual item you need to look for at Lowe's:
(Lowe's SKU# 96188 - Sponge Rubber Gasket- \$8.37 each)

Frost King Rubber Gasket Weather Stripping

7/8 " W by 3/8" Thick

Model 1400X17

Barcode # 77578 01902

Thermwell Products
