

## Pearson Keel Bolt Torque Specifications

The National Pearson Yacht Owners Association published the following specs, as provided by Bill Shaw, the designer of the P-26 and most of the rest of our Pearsons:

| <u>Bolt diameter:</u> | <u>Torque in ft. lbs.</u> |
|-----------------------|---------------------------|
| 3/8"                  | 16                        |
| 1/2                   | 38                        |
| 5/8                   | 70                        |
| 3/4                   | 125                       |
| 1                     | 200                       |
| 1-1/4                 | 600                       |
